POULTRY/RABBIT BARN

MARSHMALLOW RABBIT

Ask an adult to help you make this fun snack!

What you need:

- A bag of large marshmallows
- A bag of small marshmallows
- A toothpick – broken in half
- Mini M&Ms or other small candies

Directions:

- Cut one large marshmallow in half lengthwise (the body) and another horizontally (the head)
- Cut another large marshmallow into 4 long pieces (for the ears)
- Cut 3 small marshmallows in half and one small marshmallow into four pieces (the arms, legs, and tail)
- Now, put your rabbit together
- Since you cut the marshmallows, they will be sticky and the pieces you use for the arms and legs will stick onto the body.
- Use the toothpick to attach the head with the body.
- Use the M&Ms as eyes and a nose.

Ask an adult to help you for a little extra fun! Once you put your rabbit together, take the eyes and nose off. Place the rabbit on a microwave safe plate and put it in the microwave for a minute. What does your rabbit look like now?
